Milady Doffs her Penitential Mood and Dons a gown that's Bright.

disclaim the notion of an "Easter gown," per se, yet a bit of close questioning always reveals the fact that there is at this season of the year a new frock somewhere tucked away, or imported early in March by "my New York modiste," or brought over "wher Marie came home at the beginning of Lent;" or most likely of all, lugged up the front steps late Saturday night by a messenger boy, and fresh from the hands of the St.

dressmaker. The Sunday after Easter really sees more of a display of millinery and gowns, so far as church-going is concerned, than Easter itself. This perhaps is due to the fact that press as much individuality in their modes of procedure as is possible. And "everybody" gets new things for Easter. The weather, to a certain extent, determines whother these new articles of thery shall be displayed to-day. But even should you not get a glimpse of them-hats nor gowns nor lace jabots nor dainty gloves-until a fortnight hence, you may be sure madame and mademoiselle gloats over their possession, just the same.

Mrs. James Lawrence Blair annually goes to New York in the spring and returns laden with music ideas and many lovely clother. While she has set apart no especial costume as her "Easter outfit," one new gown which has been much admire and pronounced the height of becoming ness by her friends, is of black and turquoise. The latter shade of blue, by the way, is one of Mrs. Blair's best colors, and she wears it much, both in gowns, trim-

The black gown is a tailor affair of plate satin-faced cloth, the skirt obsolutely severe, except for the slight flare at the hem, effected by means of a circular flounce. The Eton coat has a postillion back, but not a long one. The revers are faced simply with black dull-finished silk. Under this coat Mrs. Blair wears a blouse of heavy Irish point lace in pure white, over a pale cream satin lining, the lace finished down the front with a narrow box-pleat of white shirred chiffon. Just inside the coat a touch of turquoise is given to the costume by a facing of the blue in soft liberty satin. This dainty blue bit is most effective. The hat which accompanies this gown has a small round crown of turquoise chiffon, shirred; with a flaring black velvet brim that ends high on the left side in a big knot of black velvet and tall loops of the blue chiffon. With a few ornaments of pearls and turquoises nestled in the lace at her throat and dull white gloves of glace kid, this costume can hardly be excelled for

and becomingness, Miss Daughaday, who is strongly partial to pale gray for sowns, and who finds it very becoming, will wear these early days of spring a pale gray wool examine made quite simply over slik of the same tone,

with a hat of black lace. Mrs. Francia X. Barada will eschew her blacks and pinks this spring and appear in the new pastelle blue shades. A gown which is destined to attract favorable notice is one of this peculiar and modish contrast and gay in color arrangement. Mrs. Barada has several stunning hats for the spring wear, the one which is to accompany

crin, in fantastic weave, trimmed with big crushed pink roses across one side. Mrs. Peter Wilson, always one of the best-dressed young boulevard matrons, will apwith white panne velvet dotted with brown French knots, the Eton jacket very long and pointed in front. The skirt of this gown is plain, except for the slight fullness that accrues from the flounce. A hat of fine black straw, trimmed in large pink roses in three shades, will complete the toilet.

Mrs. Glenn Hill has a Paris gown which she will remove from its tissue wrappings skies be propitious. It is a navy blue confection, of soft, thin wool, embroidered with small white silk figures. The bodice has a wide girdle beneath the Eton, and the entire front is of accordion-pleated chiffon, touched here and there with cream lace. The skirt front has a plain panel, the sides and back being formed of fine hand tucks. A medium hat of blue crin, with roses, is to be worn with this handsome gown.

One of the light-toned and essentially springlike tollets will be worn by Mrs. James Bannerman. Her gown is a crepe do Meteor of reseda green, trimmed in bands of passementerie, white and gold mixed. A soft full vest under the Eton jacket of green crepe is of white chiffon. With this Mrs. Bannerman will wear a large hat in the pastelle shades, combining faint tones of pink, green, blue and white, with the usual French touch of black put in a little black panne. Some elight ornamentation of gold is also used.

They tell a good little story apropos this monthly Blair arrangement down at the home. It seems that last time Mr. James Blair agreed to give a short talk on topics of the day. When the old folks had assembled in the parlors and all was ready, their eyes with a new French frock at this period. They will not be disappointed; for Miss Postlewaite's costume bears all the hall marks of the Parisian modistes. It is Mrs. Blair was suddenly confronted by a

a light shade of tan cloth, very "slinky" in its texture. Garniture of heavy cream lace "What will I do?" she whispered to Mr. Blair. "I can't introduce you! It would be adorns the bodice; while the skirt depends ridiculous for me to stand up and introduce entirely on its cut and its straight lines for style. A large drooping hat of brown straw trimmed in plumes that are an exmy own husband."
"Just walt," declared the gentleman. "I

know what to do," and without further words he stepped into the center of the Several very small all-black tollettes will blg room and said: "Ladies and Gentlemen: I have been in

troduced so badly on so many and various occasions that for once it gives me great pleasure to introduce myself. I am Mrs. Blair's husband, and I'm proud of the facti SERENA LAMB.

Easter Cards at 5c to \$10.00. Mermod & Jaccard's, Broadway and Locust.

MARRIAGE WILL UNITE

TWO WEALTHY FAMILIES. WRITTEN FOR THE SUNDAY REPUBLIC. Clark, son of Charles Clark, the Granite Mountain millionaire, to Miss Lenora Scullin, second daughter of John Scullin, the railway magnate, will unite two whose combined wealth reaches

for next Wednesday. The magnitude of the fortunes repre-sented by the young couple and the fact their parents practically since the Civil War, makes the case interesting, as showing the money-making possibilities in this city during the past thirty years, if nothing more. The parents of both young people had only moderate means upon their arrival in St. Louis; and neither John Scullin nor Charles Clark has been a citizen of St. Louis for longer than forty-two

mining enterprises, the Scullin fortune largely in street railways; but both mer are practical business men and have earned their money through their own unaided ef-

upon the amount which will be represented by their wedding, but Charles Clark in now thought to be worth about \$1,000,000 John Scullin's fortune is estimated various ly between \$3,000,000 and \$5,000,000. Taking four millions as a fair average, it will be seen that at least \$5,000,000 will be controlled by the two families.

lot of the young people is another matter for estimate. Miss Scullin has three brothers and one sister, a Mme. De Gheest of Paris. If her father's estate should be equally apportioned, it would give each child about \$800,000—a sum on which they could worry along very well. Charles Clark, on the other hand, has but two children, to whom his estate will probably revert. These are Louis Vaughn Clark and Charles McClure

Clark. An equal division would give them half a million apiece.
Thus Mr.Clark's smaller fortune would not be so much inferior to that of Mr. Scul-lin if divided equally among his children. Another element which must be taken int consideration is the fact that both Mr. Clark and Mr. Scullin are still in the harness, and that their money-making capacity is very far from being over.

The history of the two fortunes is interesting, and shows the opportunities afforded practical men of business in the West to

practical men of business in the West in the past thirty years. Clark came West in ing to enter the insurance business, and did actually engage in this business for a time. Then he became interested in mining stocks. He went to Montana at the close of the Civil War, and located the famou Granite Mountain mining property. The history of this mine will probably not be duplicated, as from first to last the com-pany has paid over \$12,000,000 to its stock-

pany has paid over \$12,000,000 to its stock-holders.

The company was organized shortly after, and capitalized for \$1,000,000 under the name of the Granite Mountain Mining Company. Some time after the development of the mine its profits began to grow to enormous proportions, and the amount of gold that it yielded was found to be far in excess of the wildest expectations. Interest in mining ventures was high at that time, and the speculation induced in similar property by the news of the Granite Mountain's output resulted largely in the establishment of the St. Louis Mining Exchange, where the liveliest speculation seen in this city for years took place.

The mine made Mr. Clark's fortune, and also that of several smaller stockholders. The Rumsey family of this city profited greatly by the richness of the mine, as did several families with only a small amount of the stock. Exactly how much Mr. Clark made from the mine is unknown, but it amounted certainly to a vast fortune.

First and last, the mine put about 20,000,000 in circulation in Montana and St. Louis. Later Mr. Clark became interested.

in several local ventures, being identified with the Merchants' Bridge and with the Terminal Railway of this city. His connection with the Granite Mountain, however, has always been recognized in the appellation of "Granite Mountain Clark."

Mr. Clark is still engaged largely in min-

ing interests, having of late taken up cop-per. It is possible that his fortune will be materially increased before he retires from this occupation.

John Scullin has made much of his money through his connection with the street rallways of the city. He was not one of the promoters of rail travel within the city. that distinction having been held mainly by Erastus Wells, who established a horse car line from Fourth street to Twelfth street in

line from Fourth street to Twelfth street in 1859. Scullin's roads were very different from the primitive "dummies" used on Wells's first line, and it is since the institution of rapid transit that the bulk of his fortune has been made.

Miss Lenore Scullin has been a popular young woman in her social circles for several years past, and young Mr. Clark is also well known. The Clark residence is No. 41 Vandeventer place, while the Scullin homestead, on the bluffs overlooking the river in Carendelet, is one of the best-known houses in South St. Louis.
